

CapPlus
CapitalPlus Exchange

Digital Finance Expert

Position Description

CapPlus equips financial institutions in emerging economies to deliver finance profitably for social impact. By providing strategic and operational capacity building that increases financial services to small businesses, CapPlus creates sustainable solutions that accelerate job creation, societal benefit and equity.

CapitalPlus Exchange Corporation, an international 501(c)(3) nonprofit organization, was founded in 2004 by ShoreBank, the USA's first community development bank holding company. CapPlus was established in tandem with the ShoreCap Investment Fund to demonstrate the power of combining new capital with capacity building services (the "capital plus" approach) to accelerate investees' financial services to SMEs.

With the growing need for digital financial services (DFS) among financial institutions in emerging economies, CapPlus is seeking consultants with significant experience successfully executing projects at the intersection of digital and finance to contribute technical expertise and advisory and be a core part of the CapPlus team. Successful candidates will have worked with financial institutions in emerging economies and be able to execute at the highest level in fast-paced environments, with demonstrated flexibility and a highly strategic approach.

Qualifications:

- Minimum 10 years banking or telecom experience, with 5 years of digital finance experience
- Experience working in emerging economies in Africa and Asia
- Experience leading the implementation of digital finance projects
- Excellent written and oral communication and presentation skills in English, with working knowledge of other relevant languages (French, Arabic, etc.) preferred

To apply

Submit cover letter, CV, and written summaries of three recent digital finance projects to ehar@capplus.org. Please include "Digital Finance Expert" in subject line.

Deadline

April 30, 2018
